

VW Accessories for extreme recovery

Hidden mount for VW AMAROK

Advantages:

- When compared to Multi mount option, the winch does not take up valuable rear storage space.
- The winch is ready to work immediately .
- Increased strength when pulling at an angle.
- Stylish design sought after by 4x4 enthusiasts.

General Hiddin Mount Limitations:

- Front mounted only
- Often Poor access to rope in the event of a problem.
- Limited access to the radiators for service.

Benefits of mounting system from NAVIJÁKY.CZ:

- Compatibility with most brands of winch with a pulling force up to 4.5 tons, (some competitor assemblies only allow one brand of winch installed).
- The Compatibility with winches that meet the CSN-EN 14492-1 (usually larger dimensions).
- All required regulation CSN-EN 14492-1 security features included (i.e. emergency button, load limiter).
- Supplied with in cab button with winch symbol (connects/disconnects winch from battery).
- towing latch at winch level for easy access.
- Rope access under License plate for easier Service
- Fully protected against radiator damage caused by the rope.
- Specially designed for easy mount removal and quick access to the radiator. (approx.10 min. work).
- Appropriate and complementary subtle design enhances appearance of vehicle.
